## Facts in regards to Plaintiff need Protection

Date: February 16 2013 Time 7:27 am on the above date and approximate time of 7:27 am I the Plaintiff Michael Hammond was experiencing High Blood Sugar (Hyperglycemia) I the Plaintiff was experiencing blurred vision leg cramps - headache frequent urination, I Plaintiff M. Hammond was in the shower attempting to get myself to feel a little better due to the hyperglycemia I experiencing the night before. I the Plaintiff got out of the shower I notice nurse Dees has pass my cell already and when I and other inmate was calling her back. She nurse Dees never respond I the Plaintiff ask the unit OIC can he call her back because I did not get my insulin. The OIC came back to my assign cell and said nurse Dees say she is not come to give me my much needed insulin, On or about 11-4-2012 McClintock D. EMT-P walk pass my assign cell 213 inside Z-unit because Plaintiff was not standing in his door way. According to the supreme court that is a violation of the constitution. Prison Official only violate the constitution when they intentionally deny or delay access to medical care provide grossly inadequate treatment or intentionally interfere with prescribed treatment. Which is the case here by walking away from Plaintiff assign cell without given him his medication that is interfering with prescribed treatment. Medical staff only treat Plaintiff this way. The court should provide Plaintiff with protections. Plaintiff can not get treated fairly By B.O.P. Staff. Everything that I have express is the true.
